

2022

OIL & GAS

Industry in Malaysia

1-Day overview of the oil & gas industry

- Ir Maimunah Binti Ismail

OBJECTIVE

To provide an overview and simplification to the very complex chain of processes in the Oil & Gas Industry from searching for Oil & Gas in underground reservoirs, through the various Extraction/Evacuation processes, to the point of sales to key/main Customers.

LEARNING OUTCOME

Participants will understand how Oil & Gas are explored, extracted, produced, and processed before these can reach and use by consumers. Participants will understand the differences in Upstream, Midstream and Downstream activities. Participants will also recognise the difficulties and safety risk faced at various stages of the journey and why the high Safety requirements in the Oil & Gas Industry.

TARGET AUDIENCE

- This is highly recommended for new comers and industry players, contractors and suppliers, even students on the journey of oil and gas reaching the users.
- Fresh Graduates in the various sectors of Oil & Gas Industry either Technical and Non Technical/Business support staff and also to those who needs to know where their work activities contribute to the Oil & Gas journey.
